

DELIVERY

ACTIVITY SHEET

Take some time to consider these three things at each level of engagement:

1. Activities you or the church are already doing that people could be invited to.
2. New activities you or the church could try that people could be invited to join.
3. Activities happening outside the church (not organised by the church) where you and other Christians could participate.

Try to ensure that there is something at every level. You could also look at the relational networks diagram from Dwell and think through where people are at in your community and what might suit different people. Spend more time on this in the weeks to come and actively try to make one invitation.
